REASONABLE JUSTIFICATION-Specifics are required for ALL embargo requests. The justification
must include a timeline for publication or patent. Embargo requests without this information will not
be considered.

The worked contained within the thesis will be submitted for publication in a peer reviewed journal by 7/31/21.
The embargo is required to protect the data so that no one else can copy Tess Peacock's original work and publish it. Additionally,
some journals require that the data submitted can not published elsewhere prior to submission to their journal. Publication in the
NMU Commons could violate that condition.
